

IMPORTANT NOTICE TO RESIDENTS

Just Bugs GTA will be providing a FABRIC MOTH or FABRIC BEETLE CONTROL SERVICE in your residence on _____, at _____ a.m./p.m.

All people and pets must vacate treated units for a minimum of FOUR (4) to SIX (6) hours after the treatment. You must leave upon commencement of the work. Pregnant or nursing women, children under two (2) years old, or those with allergies or respiratory problems, must vacate for EIGHT (8) to TWELVE (12) HOURS OR OVERNIGHT.

Aquariums must be covered and filters turned off.

TO ENSURE SUCCESS THE FOLLOWING PREPARATIONS MUST BE DONE PRIOR TO OUR ARRIVAL

- Remove everything from the dressers, closets, and other storage areas where woolens or leathers are kept and keep them away from these areas until after treatment.
- Move everything 6 inches away from the baseboard area. Electronic equipment and heavy furniture may be left in place.
- Reduce clutter! Insects hide in cluttered areas, especially those near sources of heat, moisture and a food source (wool and leather fabrics).

- Thoroughly vacuum all carpets, all floor level cracks and crevices, as well as the joints in closets and dressers where natural fiber materials are stored. If possible vacuum the cracks in leather or wool covered furniture and the backside of throw rugs and Persian style carpets, as well.
- Launder, dry clean, or brush all wool sweaters, suits, leather jackets, etc. to remove insect eggs, larvae, and adults.
- Reduce temperature and humidity, and allow free airflow in storage areas to help provide long-term control.

Upon returning home please ventilate your unit and replace all contents, but do not wash or vacuum baseboard areas for two weeks.

You may experience activity for up to two weeks after the treatment. If activity continues in the third week, you may need a follow-up treatment.

We will be applying Dragnet (permethrin 0.5%, PCP #24175).

Avoid touching treated areas.

In an emergency contact Ontario Poison Centre 1.800.268.9017 or 416.813.5900 24/7 for expert poison advice 24 hours per day. Supporting all of Ontario.

IF THE ABOVE IS NOT DONE IT MAY BE IMPOSSIBLE TO ELIMINATE THE PROBLEM
