

#### HOW TO PREPARE FOR A BED BUG CRYONITE TREATMENT

Initial Treatment: \_\_\_\_\_ Time: \_\_\_\_ to \_\_\_\_

Follow-up Treatment: \_\_\_\_\_ Time: \_\_\_\_ to \_\_\_\_

#### PRIOR TO TREATMENT:

☒ Reduce clutter in the entire residence, especially in the bed-rooms and living rooms. If clutter is not eliminated or reduced, additional services may be needed to eliminate the infestation.

☒ Strip your nightstands, dressers, living room end tables and closets. Shake items out over a garbage can, bag up and place on kitchen or bathroom counters, tables, in bathtubs, or on the balcony

☒ Remove all electrical outlets and switch plate covers. Strip all wall hangings and leave in unit (Pictures, calendars, posters etc.)

☒ Heat all laundry in the dryer for 20 minutes on high to kill bed bugs and eggs inside. Always follow the label on the clothing, dry clean as needed. Ex. clothes, bedding, curtains, couch cushions, futon covers, etc. Bagged items can be placed on kitchen or bathroom counters and tables or in bathtubs once laundry is complete.

☒ Vacuum all furnishings, cracks and crevices where bed bugs hide. Ex. mattress, box spring, bed frame, carpet edges, furniture joints, cracks in dressers, nightstands,

**curtain rods, floor surfaces and baseboards. Use a clothes brush or sticky tape style lint roller if you have no vacuum. Throw out the vacuum bag immediately.**

☒ **Move everything 18 inches away from the walls. Heavy items and electronic equipment may be left in place.**

☒ **Stand mattress and box spring upright against the walls. Remove plastic or non-bedbug proof mattress covers. We will remove the gauze backing on the underside of box springs, most sofas and other upholstered furniture.**

☒ **DO NOT place items on tops of beds, chairs and couches**

#### **ADDITIONAL RECOMMENDATIONS**

☒ **Vacuum daily for one-week following treatment. This removes newly emerging bed bugs.**

☒ **Mattresses and box springs should be encased in bed bug proof covers. This will reduce pesticide use, eliminate bugs inside beds and protect beds from future problems. Please measure and call us in advance of our first visit**

☒ **Seal cracks and crevices in wooden bed frame(s), other furniture and baseboards.**

☒ **ClimbUp! Insect Interceptors should be installed under bed and couch legs. Make your bed an island; keep it off the walls and do not let bedding touch the floor. The ClimbUp! Insect Interceptors will catch bed bugs traveling to and from the furniture**

#### **SAFETY INFORMATION:**

**All people and pets must vacate treatment areas while dust is being applied, however you do not need to leave your home.**

☒ **Aquariums must be covered and filters turned off**

☒ **We may use vacuums and cryonite plus the following: Exterminator Dust pyrethrins 0.2% PCP 23352 and other products as needed.**

**In an emergency contact Ontario Poison Centre 1.800.268.9017 or 416.813.5900 24/7 for expert poison advice 24 hours per day. Supporting all of Ontario.**

**IF THE ABOVE IS NOT DONE IT MAY BE IMPOSSIBLE TO ELIMINATE THE PROBLEM**
