

HOW TO PREPARE FOR A PERIMETER BED BUG TREATMENT

Initial Treatment: _____ Time: ____ to ____

PRIOR TO TREATMENT:

Reduce clutter in entire residence, especially in bedrooms and living rooms. If clutter is not eliminated or reduced, additional services may be needed to eliminate the infestation

- Remove all electrical outlets and switch plate covers. Strip all wall hangings and leave in unit (pictures, calendars, posters, etc.)**
- Move everything 18 inches away from the walls. Heavy items and electronic equipment may be left in place**
- DO NOT place items on tops of beds, chairs and couches**

WE ALSO STRONGLY ADVISE PRIOR TO TREATMENT:

Heat all fabric in the dryer for 30 minutes on high to kill bed bugs and eggs inside. Always follow the label on the clothing, dry clean as needed. Ex. clothes, bedding, curtains, couch cushions, futon covers, drapes, etc.

• **Bagged items can be placed on kitchen or bathroom counters and tables or in bathtubs once laundry is complete**

Vacuum all furnishings and cracks/crevices where bed bugs hide. Ex. mattress, box spring, bed frame, carpet edges, furniture joints, cracks in dressers, nightstands, curtain rods, floor surfaces & baseboards. Use a clothes brush or sticky tape style lint roller if you have no vacuum. Throw out the vacuum bag immediately.

ADDITIONAL RECOMMENDATIONS

Vacuum daily for one-week following treatment. This removes newly emerging bed bugs.

Mattresses and box springs must be encased in bed bug proof covers. This reduces pesticide use, eliminates bugs inside beds and protects beds from future problems. Please measure and call us in advance of our visit

Seal cracks and crevices in wooden bed frame(s), other furniture and baseboards

ClimbUp! Insect Interceptors should be installed under bed and couch legs. Make your bed an island; keep it off the walls and do not let bedding touch the floor. The ClimbUp! traps will catch bed bugs traveling to and from the furniture.

SAFETY INFORMATION:

All people and pets must vacate for a minimum of FOUR (4) to SIX (6) HOURS. People with allergies, respiratory issues, pregnant or nursing women or children under two (2) years must vacate EIGHT (8) to TWELVE (12) HOURS OR OVERNIGHT

Aquariums must be covered and filters turned off

• **Demand CS lambda cyhalothrin PCP 27428, Exterminator Dust** pyrethrins 0.2% PCP 23352, and other products as needed.

Please ventilate for 10 minutes upon re-entry and avoid touching treated areas

In an emergency contact Ontario Poison Centre 1.800.268.9017 or 416.813.590024/7 for expert poison advice 24 hours per day. Supporting all of Ontario.

IF THE ABOVE IS NOT DONE IT MAY BE IMPOSSIBLE TO ELIMINATE THE PROBLEM
